To the new members of our practice,

Dr. John J. Denison and his staff want to thank you for making the decision to join our practice. We are very glad to have you as members of our dental family, and we want you to know that we take great pride in providing you with the best possible dental care. We will provide you with state of the art dental care and a comfortable, relaxing environment. We are a comprehensive dental practice, which means that we provide all your treatments here, whenever possible.

You will be provided with detailed examinations that not only inform you about your dental health, but also how your dental health impacts your total physical health. Your examination will include a thorough head and neck examination, cancer screening examination, evaluation of your gums and teeth, radiographs and photographic evaluation of your oral condition. You will be given direction in brushing and flossing techniques, and you will be provided with a detailed report of any findings. If you have dental insurance, the report will include an estimation of the insurance assistance.

Dr. Denison also offers cosmetic dental treatments that can enhance an already beautiful smile, or completely restore a neglected mouth to perfection. Dr. Denison performs crown and bridges as well as implants. Dr. Denison realizes that a persons' self-confidence, as well as opportunities for advancement, are greatly affected by appearance. He will be happy to talk to you about any of these treatments.

Again, welcome to our practice. We look forward to serving all your dental needs. If you ever have any questions about your treatment, or you have any recommendations as to how we can better serve you, do not hesitate to speak to Dr. Denison or any member of his staff.

Thank you!
